Hon. Commissioner of Patents and Trademarks, Washington, D.C. 20231.

Informal Communication to Examiner Gilberto Barron Jr.

Dear Gilberto Barron Jr.,

I understand why you are so reluctant to allow my application. Actually at the very first day I received Haas et al. patent document I'd already found the problems in its dependent claims 14, 16 and your name is being printed on it as the primary Examiner. In other words, you are responsible for its allowance.

For the best of my own interest, I cannot continue to let the patent office be unaware of this matter. I will do this formally or informally--- as long as someone other than you in the patent office be informed, a formal procedure may be initiated for invalidating the 2 claims. I have to do this in order to speed up the application procedure, I have been waiting for too many years. I won't wait any longer and will do this before I file the appeal brief.

I suggest you to make use of arguments found in my "reasons or overcoming Haas et al." filed on Jan 7, 2003, to try to defend yourself that it does define a structure readable on the description. And, as an Examiner, you have to allow it as long as its independent claim is allowable even if it contains nonsense, because you are not the person who should do a patent attorney's work for an applicant or rectify a patent attorney's error in defining a claim due to laziness. Or even, you have tried to do so informally but in vain.

I will have also to make a complaint against you, in order that the patent office will use another examiner and supervisory examiner to be in charge of this case who will act honestly and faithfully in preparing the Examiner Answer to my appeal brief, as well as entering my other amendments, before this case being sent to the Board of

Appeal.

Whatsoever, as you know, it is bound to happen that someone else in the office will know this problem in Haas et al., no matter you want it or not. And, I think you should be the first one to make this happen, for your own interest. I would also like to suggest you to voluntarily withdraw from examination work of this case, you can give excuses such as "conflict of interest" etc to the Patent Office.

I still hope that you can handle this matter in a sensible manner. You are a well-educated nice guy and I like you. I really hope that this will cause you no harm, or to the least extent, therefore I inform you once I've made these decisions.

Finally, as I have told you, I will also request for an expedited Re-examination.

With best regards,

Ho Keung, Tse.

Urgent Enquiry about Complaint Against Examiner

Dear Mr. Albert Decady,

I am afraid a complaint against Mr. Gilberto Barron Jr., the Examiner in charge of my above-identified application, will be inevitable.

As Mr. Gilberto Barron Jr. has recently been promoted to Supervisory Examiner, so I think it would not be appropriate to address the complaint letter to you, who I guess should also be a Supervisory Examiner. Would you kindly let me know to whom the letter should be addressed/sent to when I shall call you this Wednesday?

With regards,

Ho Keung, Tse.
